SUMMARY

I am a full stack developer and programmer with extensive experience in the hotel, food and beverage and customer service industry with enormous passion for front and backend coding what makes computers tick and finding out how each system functions and interacts with one another. I enjoy working in development because it allows me to continue to think creatively while adding new skills and taking on new challenges.

SKILLS

HTML5, CSS3, Bootstrap, Flexbox and Grid, JavaScript, ES6, Node.js, Express, Chai, Mocha, MySQL, MongoDB, Mongoose, Sequelize, Firebase, React JS, jQuery, Ajax, Python, Django, Chart JS, Passport JS, Chart JS

TECHNICAL EXPERIENCE

Fresh Farm Recipes

Developer, Github Lead

Tools used: jQuery, Leaflet, Edamam API, USDA farmer's market API, Bootstrap

-Worked with a four-person development team to build a multi API based app providing recipe recommendations from selected ingredients and listing and mapping nearby farmers' markets

-Served as the sole developer working with jQuery, HTML and CSS

General Knowledge Trivia

Tools used: jQuery, setInterval, setTimeout

This is a fun little general knowledge trivia game I built to practice working with setInterval and setTimeout more. Users get 20 seconds to answer all of the questions, and their score is tallied and presented to them.

Movie Gif Finder

Tools used: jQuery,localStorage, Giphy API

This is a GIF search engine for movies, with pause-and-play functionality for each GIF and the option for each user to save favorited GIFs from session to session. I put it together using the GIPHY API and localStorage.
